

ACCURATE DOUBLE REED

2008 Bassoon & Oboe Products

Bassoon Reed Case

Leather covered European case is fitted with 6 specially designed tips to firmly hold your reeds. Vented for air circulation, with swivel reed holders.

Order #: *BAS160-BLACK* \$62.50

Soft Brass Wire

ACCURATE's 22 gauge soft brass wire is the gauge most often used by bassoonists. Some prefer the thicker 21 gauge wire for the first wire on the reed; many contrabassoonists use 21 gauge as well. The thinner 23 gauge is used by the German school who feel it allows different tonal qualities of the reed to be present. 24 gauge is used by many oboists.

Item	Order #	Price
21 ga. soft brass wire (1 Lb Spool)	BAS743	\$27.00
22 ga. soft brass wire (1 Lb Spool)	BAS740	\$27.00
23 ga. soft brass wire (1 Lb Spool)	BAS745	\$27.00
24 ga. soft brass wire (1 Lb Spool)	BAS747	\$27.00

Indicator Sets—Bassoon and Oboe Models

Measures the precise thickness of Reeds. Our unique Anvil Measuring Tip is made from Stainless Steel, and index marked every 1/8 inch. Our Indicator Sets are manufactured by us for strength and precision. Dial Indicators are held firmly for accuracy, and our points are designed to our own specifications for proper cane measurements. Available in Inch and Metric, as well as standard or electronic. All our models have a lifting lever for operating Dial Indicator.

Precision Micro Oiler

Designed so that there is no dribbling of oil; place a drop where you want it. The bent tip allows easier access to lubrication points. Comes filled with 1 oz. of highly refined instrument oil, specially formulated for high lubricity and low evaporative rate, thus minimizing your oilings and residue buildup. We also include a tip cap and a bottle cap, so you can take the oiler with you without spills.

Order #: BAS760.....\$5.00 ea

Oboe Cane Diameter Gage

Manufactured out of solid Aluminum, measures from 10mm thru 12mm in .25mm increments.

Order #: RGA100218.....\$20.00
